

Fredericksburg is Ready for 100% Renewable Energy

To: The City Council of Fredericksburg,

Please support a resolution that pledges to ensure that all power supplied to Fredericksburg comes from 100% renewable energy by 2050.

The best available science is telling us we need to transition away from fossil fuels, and the technology is available to do it. Cities and towns across America are already committing to this

transition. Fredericksburg should join them and also pledge to go 100% renewable!
